PHYSICAL CONNECTION TEST

1, Types of mediums ?

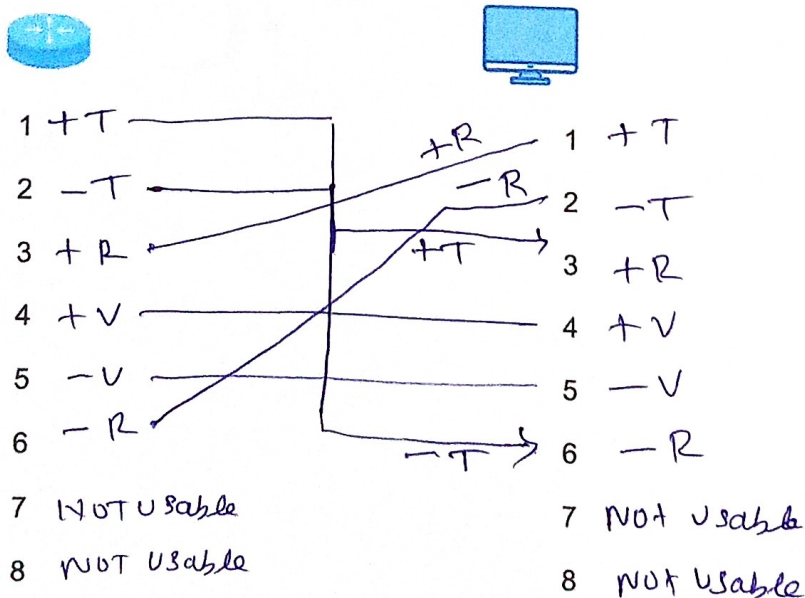

There is a three type of mediums.

1. Radio Frequency, it is used to (Bluetooth, wireless, mobile device)
2. Electrical Frequency - it is used at UTP Build IT infrastructure (network)
3. Light Signal - Fiber optical cable. (use to long distance)

2, Write down switch 8-pins ?

- 1 +T
- 2 ~~+~~T
- 3 +R
- 4 +V
- 5 ~~+~~V
- 6 -R
- 7 NOT usable
- 8 NOT usable

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

Auto-MDIX is a Automatic medium Dependent interface crossover. network straight cable and crossover cable is connected and configure itself correctly.
It handling every easy to connect all device.

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

- nic, is network interface card, 1. it is ^a ~~joining~~ ^{connecting} computer & hardware, joining device,
2. From computer Digital Signal convert to electrical signal
 3. From electrical signal convert to digital signal.
 4. It Based on (mac address) working.
